

Altus Pensions Gateway v 2.5

Briefing Note

The latest version of the Altus Pensions Gateway (APG) has been released and is now available to clients.

APG offers a comprehensive pension payroll and tax reporting solution dedicated to the needs of pension and annuity administrators. Specifically designed to cater for pension freedoms, APG supports flexible payment schedules across multiple product types, employers and administration functions.

APG is updated each year to remain in compliance with the changes published with HMRC, ensuring that all calculations and submissions made after the start of the new Tax Year are correct and accepted by the service.

The enhancements in the upcoming release are as follows:

- Support for full payment submission 2020
- Support for Employer Payment Summary 2020
- Support for Earlier Year Update 2019
- Support for 2019/2020 Tax Regime, including Welsh tax codes, updated tax rates and thresholds
- Support for updated coding notices supporting Welsh tax codes
- Support for back dated payments in both current and previous tax years
- Reporting of non-taxable payments
- Addition of payslip preferences and enhanced individual and bulk payslip processing

APG version 2.5 went live on 23rd February. For a copy of the full overview or for a demo, please contact us at enquiries@altus.co.uk
